

Fingerprint Master Class

Subject: Fingerprint Master Class

Lesson Focus and Goals:

At the end of the session, students will have a really good overview of fingerprints, in a fun and informatative delivery

Materials Needed:

- Fingerprint Kit contents
- Access to training video
- Powerpoint for delivery (supplied)
- Access to H & S risk assessments
- Face masks

Learning Objectives:

- History of Fingerprints
- Take fingerprints
- Classify fingerprints
- Dust for fingerprints
- Compare dusted fingerprints against three suspects

Structure / Activity:

- Show the introductory video
- Explain the contents of the box
- The A5 Card will refer students to csifingerprint.com which reinforces everything you show. It also allows them to print off a certificate if they get the suspect correct!
- Give a very brief history of fingerprints
- Get students to take a set of fingerprints (if you are short of time-one hand only) & show the "taking" video
- Show students how to classify fingerprints ("classifying" video)
- Show and demonstrate (if you want) how to dust for fingerprints ("dusting" video)
- Compare the dusted mark against three suspects
- Refer students to csifingerprint.com

Assessment:

Work out which suspect left the fingerprint on the playing card

Appendix "A"

Some people have experienced difficulty opening the fingerprint ink strip, so here is a diagram

Any problems?
